WEDDING
LAURER-BABCOCK
At the Baptist Parsonage, July 28, 1928 by the Rev. James Denson, Joseph Jacob Laurer, late of Switzerland and Miss Hattie Pearl Babcock, of the Town of Lacombe.

ORANGEMEN CELEBRATE
Orangemen from Wetsaskwin, Ponoka, Red Deer, Oliver and Lacombe, combined to hold a big celebration at Jackfish Lake on Thursday. Straight and novelty races and many games were enjoyed by both young and old and refreshments of all kinds were provided by two booths which were well stocked to feed the crowd. Jack Hession of Ontario with his bagpipes was a great attraction and was assisted in the musical part of the entertainment by Nat. Jamieson, banjo and Messrs. Blackstock and C. Madden of Fairview. Also Miss Mue Gregor of the Canadian Junior College, sang beautifully some of the old hymns. Clever and witty addresses were given by Rev. Hughson of Oliver, District Elder Rees of Ponoka, District Grand Master Westgate of Ponoka, Worthy Mistress Mrs. Morris of Oliver, and Mrs. Jones of Red Deer. The celebration wound up with a big dance in the evening for which the Harmonizer's Orchestra furnished the music.

UNIVERSITY OF MUSIC
Toronto Conservatory of Music
All of the thirteen candidates for examination, prepared by Prof. W. M. M. Touche, were successful; ten of the thirteen receiving Honors, or First Class Honors, as follows:
A.T.C.M. Violin—Myrtle Cochran, 75.
Primary Violin—Geraldine Amell, 76; Frank Dyke, 71.
Elementary Violin—John Jaffary, 67; Victor McArthur, 71; Isabel Matheson, 67; Cora Stanberry, 73; Rhonnie Williams, 80.
Introductory Violin—Leeta McDougall, 74; Margaret Watt, 72.
Elementary Piano—Harold London, 68.
Introductory Piano—Donald Moore, 72; Joy Reeves, 70.

For nine consecutive years Mr. Touche has not had a single failure in piano. Miss Myrtle Cochran has been with Mr. Touche from the beginning of her music studies. This is a privilege granted few teachers, to lead a pupil up to the A.T.C.M. from the very beginning.

days at their cottage at Brownlow's Landing.
Mr. Skirje and family are away on their holidays. Mr. Skirje's mother, who has been their guest for the past two weeks, accompanied them.

Mr. and Mrs. J. C. Carruth, and daughter Marjorie, with Mrs. F. C. Nelson, and son, Ronald and Beatrice Carruth are in Edmonton for a few days.

Mr. and Mrs. B. Williams are on a visit to the States.
A rather unique wedding took place at Brownlow's Landing on Friday last, when a couple from Bon Accord motored down in order that their pastor, Rev. Fawcett might perform the ceremony, which took place in the open air under the trees at the Fawcett Cottage. We did not learn the name of the contracting parties. Friends from Edmonton were in attendance to witness the ceremony.

BAPTIST ASSEMBLY
The Baptist Assembly at McLaurine Beach. A good road has been graded into the Beach from the main road. The road going north a half mile East of Aspen Beach is put in good shape and so there is a good road in to the Lake shore.

The Boy's Camp of about 40 is on the grounds just now, and closes on the 19th. The girls' camp which promises to be unusually large, opens on the 20th. The cottages are all filled. Store, Post Office and Telephone proves a great convenience.

The summer assembly opens July 30th. Dr. A. L. McGinn of Toronto, a very popular Lecturer will give a series of Lectures for two weeks. Also Rev. D. Merriek Walker of Edinburgh Scotland will give several addresses during last week in August. All these meetings are open to the general public upon payment of small fee according to the number of lectures attended, just to pay expenses.

The dining hall provides good meals at the small charge of \$1.00 a day. The Baptists are deserving of the support of the public, because of the splendid speakers brought here, and the education and religious influence of this assembly.

marital bagpipes he has played even longer, will again recount in the Canadian Rockies, making Banff resemble its namesake in Auld Scotia. Initiated last year under the patronage of the Prince of Wales, this festival has quickly established itself as a Canadian institution, with regimental piping contests, athletic games, folkdances and Highland dances all as old as Scotland herself. Notable among the musical features arranged by Harold Kesteven Key, one of the best of the Canadian Pacific Railway, is the special performance of "The July Breeze," a cantata with text by Burns and music by Sir Henry Bishop. At the daily concerts in the hotel ballroom outside Canadian artists will sing the folk songs of Scotland and Scottish Canadian bands will join their ladies in the Highland fling, the sword dance, the solo's burrpipe, the Scotch reel and the graceful waltz. The programme of Scottish music is drawn up in historical sequence beginning with the old ballads of the 13th, 14th and 15th centuries followed by groups from the period of the Queen of Scots, the Jacobites and the Jacobites, selections from the songs of Burns, the Walter Scott, and the 19th century. It is a Scotch waltz as the most popular music recently made popular by Margaret Kennedy and Frank.

EVERY TWO MINUTES OF EVERY BUSINESS DAY --- SOMEONE IN CANADA BUYS A NEW GENERAL MOTORS CAR

SINCE the days of Confederation, General Motors of Canada Limited has been supplying Canada with transportation. Each year as requirements have multiplied, the scope of General Motors service has widened... the quality of General Motors cars has steadily improved. Each year more Canadians have looked to General Motors for better automobiles, until now, every two minutes of every business day, someone in Canada buys a new General Motors car. These cars are bought by people who

know... by people like yourself... for the very reasons which would guide you in the choice of a car.

They are bought because they are the product of the most progressive organization in the world's most progressive industry... because they reflect the General Motors policy of constant advancement... because they are better cars.

They represent the latest development of the world's leading automotive research

laboratory, offering these developments to the public as soon as they become available. They are proved in advance, at the expense of General Motors, not the public. They are better cars because they are Canadian cars. And they embody greater value because of General Motors money-saving methods of quantity buying and volume production.

This popularity of General Motors cars holds more than a passing interest for the Canadian car buyer... for General Motors utilizes increased demand to reduce production costs and to offer still more outstanding automobile value.

CLERGYMAN WANTS NEW CELEBRATION

With a view that the time has come for Canadians of all religious beliefs to stand shoulder to shoulder, for "one grand confederation celebration of the land of religious freedom. Rev. Col. R. H. Steacy, C.M.G., for seven years Grand Chaplain of the Orange Order in Ontario and prominent in war Veterans' associations, proposes that the Catholics and Protestants should change the respective dates of St. Jean Baptiste day, and the celebration

of the Battle of the Boyne and unite in a yearly celebration on the July First. Colonel Steacy takes the view that Canada has not any national day. The French-Canadians celebrate St. Jean Baptiste day on June 24th. The Orangemen celebrate the anniversary of the battle of the Boyne on July 12. Colonel Steacy pointed out that, although celebrated on July 12, owing to changes in the calendar, the Battle of the Boyne was actually fought on July 1, and he thought that Orangemen could easily change the date of their

annual celebration. He expressed the opinion that the Catholic church would be willing to advance the date of their celebration to unite with Orangemen in proclaiming to the world that Canada was a land of religious freedom.

BARON BING'S NEW JOB

It is entirely the business of the people of London, or rather of the British Government as to who shall be the head of the London Police Force. The selection of Baron Byng, former Governor General of Canada, for the position, however, if of interest to the people of Canada, who remember him with feelings of kindness and, naturally, still feel that in a sense he belongs to them. Baron Byng was a popular Governor-General, and even if he blundered somewhat at the time of the political crisis at Ottawa, they will not hold this against him.

When most of us probably feel about Lord Byng becoming Chief of Police which, although that may not be his official title, is what he will actually become, is that it seems rather a come down from the position of Governor-General of the oldest of His Majesty's Dominions overseas. It seems to minimize the importance of Canada in the Imperial scheme of things. We have rather come to regard the person of our Governor-General as being almost as sacred as we regard that of the King. Perhaps that is an ultra-Loyalist view, nevertheless it expresses what many of us feel. We have looked upon the office of Governor-General as a most exalted one, which undoubtedly it is. All this may be said and is said, undoubtedly, without any feeling of flunkiness or snobbery. We simply deal with facts as they present themselves before us.

Of course, it does not matter where or how a man serves, so long as he serves. A man who is a good street-sweeper is a good public servant. A good cop is not to be despised (there are so few of them). There is dignity to labor even in its humblest form. Yet from Governor-General to Chief of Police, is a descent. What is to be feared is that if our Canadian Governor-General, when they give up being Governor-General, are to become plain, simple policemen, or stock brokers, or newspaper editors, say, then the old time respect for the office and esteem for its occupant may disappear. It may be that in the expression of these views there is a tinge of egotism. Perhaps we think too much of ourselves in Canada. It may be that we do not like policemen, and so don't like to think of Lord Byng at the head of the police force of London. But, whatever may be our feelings in these respects, we shall agree that the man who so worthily filled the position of the King's Representative in Canada is deserving of a much higher niche of usefulness than that of head of the London Police. It may be that the Home Government does not wish to utilize Baron Byng's services in gubernatorial posts because of his alleged faux pas over the constitution issue, but people of Canada harbor no ill feeling against him and would gladly see him serving the Empire in some of its ambitious manner than the position he has lately had thrust upon him.

THE UNIVERSITY'S NEW HEAD

As hon. John Bracken, first minister of Manitoba, has aptly said, the Province is to be congratulated on having secured the services of Dr. R. C. Wallace as head of the University of Edmonton.

How sincere Mr. Bracken must have been when he made the above statement publicly those who know the close association which has existed between Dr. Wallace and the Manitoba Government will fully appreciate. Dr. Wallace's department in science is geology, and since Manitoba came into the industrial spotlight as a mining province he has been the advisor-in-chief to those charged with the development of these resources.

Now that Alberta has high hopes that she, too, may participate in the benefits of the oil, the pre-Cambrian shield, Dr. Wallace's presence in Edmonton will be of inestimable value to those in authority there, quite apart from the value of his services in the capacity of president of the University.

By way of valediction to the doctor on his departure from Manitoba, the Winnipeg Evening Tribune says: "A quiet, self-effacing Scot, with an infinite capacity for hard work, a mind that is both scientific and practical and with dynamic power hidden under his courtesy and culture—that's Dr. R. C. Wallace, whom the University of Alberta is taking from the University of Manitoba. Dr. Wallace is president of the Alberta University, and rightly deserves the honor. Manitoba's loss is Alberta's gain, all right, but it is a loss that Manitoba can ill afford. The temptation is to regret that Alberta take the University of Manitoba and leave us Dr. Wallace."

Some of his public activities are well known to the public at large. Others have been very quietly rendered. There is, for example, the fact that Dr. Wallace has been responsible for a very large part of the success attending the work of the industrial development board, something the public knows little

about but a fact nevertheless which would be promptly attested by any member of the board or its officials.

Manitoba has been counting on Dr. Wallace to establish an industrial research department. It has been counting on him for the administration of the natural resources when they are returned to Manitoba. It has been counting on his administration of the mineral regions of the north. It has been depending on him for many similar and related activities, knowing that whatever was assigned to him would be performed with quiet efficiency. And just at this point Alberta steals him away.

Canada's OPPORTUNITY

An appeal of governments, not only of Great Britain, but also of the Dominions overseas, to put the colonization question on a solid basis, free from political influences, is sounded by Commissioner David Lamb of the Salvation Army, one of the most thorough students of Empire settlement living today.

Commissioner Lamb's appeal is directed primarily to the British Government who he addresses, apparently more in the cause of solving the over-population and under-employment of dominions. He has perceived in the course of his study of the question a tendency on the part of the Australian Government to "broaden out" in the matter of Empire settlement and predicts that when the British Government mission on emigration visits that commonwealth, they will find that the Federal Migration and Development Commission has prepared a policy aiming to encourage British Emigration to the Antipodes.

A comprehensive immigration policy Commissioner Lamb continues, is also essential for Canada, and he believes that Mr. King, now that the situation has been clarified by the inquiries of a parliamentary committee, has a great opportunity to lift the Canadian immigration to a high level. Addressing himself to the statement

of his own country, the commissioner says:

What is this country going to do? The national burden, unemployment, presses hardly on industry and people here. If we have spent \$2,600,000,000 on nothing, surely, we can contemplate undertaking a like expenditure from which there might be a return, even if that return were indirect. The question is this should have been lifted out of politics.

This unproductive expenditure must be ever present in the minds of our kinsmen overseas, and if there appears to be a little selfishness in their negotiations that need be no reason for nigardliness on our part. Conservatives always had the reputation of being Imperialists. What a great opportunity presents itself to the present government! Liberals appear to maintain their historic lukewarmness in the matter of emigration. Labor is no longer openly hostile; indeed some of the Labor statement see the practical and political possibilities of a big Empire constructive policy. Anyhow, no party can escape or evade the reproach of a "faithful million" who persist on the "live" registers of the unemployed.

"ALL ROADS LOOK ALIKE TO ME"

ONE of the great reasons for Oldsmobile's tremendous success in every section of the country is its ability to take all roads as they come and to deliver the same fine, satisfying performance, hour after hour and month after month.

Steep hills, rough roads, loose gravel, difficult detours—they're all a part of the day's work to this new Oldsmobile.

A great new 55-h.p. engine provides power for any need and speed to meet any emergency. A new-type cylinder head of General Motors' Research design gives the pep and snap of high-compression performance without the use of special fuels.

Pine materials and sturdy construction throughout impart the stamina and brute force usually found only in much larger cars.

And fine-car design—evidenced in such details as four Lovejoy hydraulic shock absorbers and deep-cushioned, form-fitting seats—assures complete riding comfort under all conditions.

Come take a drive. Give the Fine Car of Low Price your own road tests. See why thousands of Oldsmobile owners are saying "All roads look alike to me!"

Danish Jazz Late

Excepting a recent term at Wellesley College, these young ladies, Miss Peggy Fletcher, and her sister Adele, have lived exclusively in Copenhagen, capital of Denmark, where their father is consul-general for the United States. Here they are sailing aboard the Cunarder Amund from Montreal this summer for "home." Denmark's native "jazz" is not the best, and United States frolics are somewhat late arriving in Copenhagen, they said; but young Danes are admirably adaptable, young women may vote, and the winter climate is mild all of which offset the "jazz" difficulties. The seven hundred passengers of the big tourist liner agreed that the diplomatic sisters were ambassadors of beauty as well as goodwill.

DEATH OF D. FAWCETT

The citizens of town and country were deeply grieved on Friday morning when the news of the death of one of our most highly esteemed old-timers, Mr. Dougald Campbell Fawcett, familiarly known to all as "Doug" was received. Deceased had been in poor health for about a month, and a few days ago was taken to the hospital, where it was found that he was in a serious condition. His doctor had great hopes however that he might recover, and he was progressing so favorably that his death came as a great shock to his friends. He was a general favorite, and a real sport, when it came to helping out in any way he could the various public enterprises, being especially active in the Elk's organization, of which order he was an enthusiastic member. The funeral was held on Saturday afternoon and was attended by hundreds of friends in the community. Services were conducted by Rev. Mr. Layton, in the United Church, and at the grave the impressive funeral service of the Elks was read. The members of that Order turned out in regalia, attending the funeral in a body.

Mr. Fawcett was born at Drayton, Ont., September 22, 1869, and in his youth removed to North Dakota, where he farmed for some time. He began farming in this district in 1895, and in 1903 was united in marriage to Miss Sadie Henry, who died the following year at the birth of their son. Since that time his mother and niece, Miss Majorie, have made their home with him until very recent years when he gave up the farm and they removed to town to live.

He leaves to mourn his loss his aged mother, Mrs. Elizabeth Fawcett, three brothers, Norman, of Casper; William of Lacombe, and Robert, who is in California, and his son Oliver, who resides near Lacombe. The affection and esteem in which the deceased was held were shown by the many beautiful floral pieces which were sent by the following friends and relatives:—The Family; Ladies' Guild of the United Church; Friends of the Barber Shop; Mr. and Mrs. A. J. Cameron, Chilliwack; Messrs. Raymond and Woody; Mr. and Mrs. Grayson; D. R. McDougall; Wilkie Family and Mrs. Healy; Mrs. D. M. Reeves; Mr. and Mrs. D. F. Chisholm; Mrs. Robt. Miller; Mr. and Mrs. A. M. Campbell; Lacombe Rebekah Lodge; Lacombe Elks; Mrs. Gilbertson; Mr. Schade. Mr. Fawcett was pre-deceased by his father, William Robert, in 1925; by two sisters, Mrs. Lavinia Northwood, who was well known in this district and who passed away in 1912 and Mrs. McCarty of North Dakota who died in 1890; and by a brother, Oliver, who died in the year 1900 in North Dakota, at the early age of fifteen years.

HORSE-SHOE TOURNAMENT

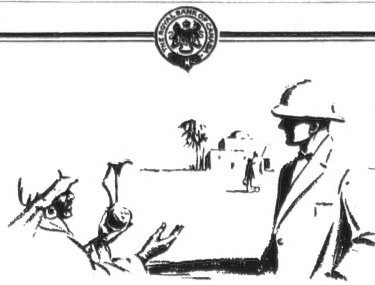

An exceedingly thrilling horseshoe tournament was staged at Gull Lake on Sunday between Bentley and Lacombe. Bentley twirlers won out, but Lacombe players sure tossed a wonderful shoe at times. Ringers were the order of the day, and many ringers were dropped on the peg. Lacombe team has no ability to offer, but say that the next game will show a different result.

At Gull Lake

The annual meeting of the rate-payers of the Village of Gull Lake was held on Saturday evening last in Fernie's hall and fairly well attended. Secretary-Treasurer D. F. Chisholm, read the auditor's report for the year, showing the Village to be in a good financial condition. Matters of general interest to the village were discussed, among other things, the building of a pier on the beach, a much needed utility. The matter will be looked into by the council at once. The establishment of an auto camp was also threshed out, and it is probable that in the near future a camp will be laid out, with a cook house and other accommodation for the tourists. The ratepayers at the meeting were of the opinion that the council should endeavor to interest the C.P.R. in the lake, and it was suggested that a free site might be given that Company for the erection of a bungalow camp. The property on the corner of the main road, just opposite the McDonald Hotel, would make an ideal location, in fact the boat on the beach, and it is likely that Dr. Sharpe, the owner of this land, 200 feet of lake front, will be approached for an option. Everyone at the meeting expressed their appreciation of the very clean state in which the Village was kept, the beach being in better and cleaner condition than for several years past.

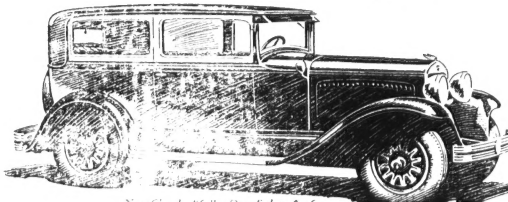

After the meeting nominations were called for members of the council for 1937. Messrs. Campbell and McNeil were present, members, signified their desire to retire from the Board, but were put in nomination. Dr. S. A. Abbott, of Edmonton, was also nominated, and as there was no opposition, this year's council will be composed of these gentlemen.

The Red Bird Orchestra opened their engagement in Fernie's Hall on Saturday evening, and were greeted with a full house. The music provided was of the high class, and the dancers passed a very pleasant evening.

The McDonald hotel is now open to the public and tourists can obtain pleasant rooms and good meals at this pretty hostelry. Mrs. McDonald will rent the top floor to a Girl's or Boy's Club, by the week or by the month, and as the rooms are all comfortably furnished, a splendid holiday could be spent here at a very reasonable cost.

Only Chrysler could achieve such style

To achieve a new group of cars with completely original body designs, so illustrious and distinguished as to give every beholder an entirely fresh appreciation of the artistic and mechanistic possibilities of

today's science of automobile manufacture—that is the gigantic task which Chrysler engineers and craftsmen have accomplished so notably in the new Chrysler Sixes—"75" and "65." At their exceptionally low prices, we confidently believe the new lines of Chrysler cars initiate not only a new vogue in design and a new supremacy in mechanical perfection, but establish also an entirely new conception of automobile values in the fine car field.

THE ART OF KEEPING YOUNG

Why should anyone ever grow old? Scientists tell us that every particle of our bodies, every tissue and fibre, is renewed every few years, so that the bodies we have today are not at all the bodies we had a year or two ago. If this be true, and there seems to be no question of its accuracy, the question arises "Where do we become old?" And the only answer that can logically be given to that question is that we become old only in our minds. We think we are getting old, we believe it; therefore we get old. It must be so. If our bodies do not get old, but keep ever new, while we are ageing, then the ageing must be in our minds, not being in our bodies.

The art of keeping young would, therefore, seem to consist of keeping the mind young in its outlook, in seeing visions rather than in dreaming dreams, in taking no notice of the flight of years, and visualising ourselves as being constantly young. Birthday anniversaries are nice occasions, especially when they are remembered by others, but they are, after all, only so many milestones that remind us of the number of miles we have travelled and that we are that much nearer the end of the road. It may not be a good thing to be reminded of the ugly fact of growing years. We seem, somehow or other, to get into our minds that when a certain age is reached our work is done, and all that remains is to make ready to die, when as a matter of fact there is no justification for anybody dying at all, granted that our bodies are constantly getting renewed, as science declares.

We should associate with youth more than we do, get a youth viewpoint on things, forget the past, let the future take care of itself and live in the ever-present Now. It is always Now. To know we are living now is enough. When we learn how to do that, we have learned the art of keeping young. Above all, we should never think of "retiring." Men who retire from business usually retire to the graveyard. Three score years and ten is not a divinely-ordained limit upon life. In fact, the man who coined the phrase, Moses, lived to the age of one hundred and twenty. We should remember that One said, "I am come that ye might have life and have it more abundantly" and simply take Him at His word. It would probably mean eternal life for the race if we would but do so.

WHY LEAVE CANADA?

Roger W. Babson, the economist, has been saying that the young men who leave Canada for the United States are just so many fools. He does not put it that way, but that is what he implies. Young men are much better off in Canada than in the United States, the economist declares, in that Canada needs men and there are bigger and better opportunities here. This despite the fact that salaries and wages are higher in the neighboring country than here.

The kindly warning Mr. Babson is at once timely and necessary. There will always be a large number of young men with restless feet who

must go out into the world and tempt fortune in other lands. The field will always seem greener to some the farther away they are. But Canada is a young man's country; a country to grow up with. With its vast untapped natural resources and its potential wealth to be won for working, this country will repay hard and efficient labor as few countries will.

It will not, however, be by selling millinery and haberdashery behind a counter, or by adding up columns of figures in an office that young men will win fortune in Canada. Canada calls to the youth of the land to till the soil, mine the ores, cut the timber and in a hundred ways develop the natural resources. The country does not need any more white collar wearers. What it needs is men who will roll their sleeves up, and work, going out into the wilds and taming them, spreading our civilization and reaping rich rewards for doing it.

There are new railway lines to be built, rivers to be bridged, unknown regions, rich in mineral wealth, to be explored, and great, uninhabited tracts of country to be populated. Canada is not built on St. James Street, or in the financial parlours of Toronto and Winnipeg. It is built by pioneers who rough it, but who wrest fortune from the hands of the Gods. True, it is, that often the financiers steal from the pioneers, the fruits of their toil, but may it not be that they, with all their money bags, are placing false values on life? Is it not achievement that counts more than possession?

Let the young men stay in Canada. Babson is right. But let us who constitute the people of Canada, see that Canada is a country that young men will have no desire to leave. If low wages are a factor in driving young men to other countries, then let wages be higher. Low wages are a curse to any country. The bigger the wage fund, the more money the wage earners have to spend and to spend, which means more money for the merchant, and everybody concerned in the manufacture or distribution of commodities. Give all men a chance to profit by their toil for Canada. Rich corporations don't make a country rich. It is a high general level of prosperity that counts. Make it worth while for young men to stay in Canada, and they will stay. But in any case, the right young man will make conditions right for himself.

THE TRENCH SILO

There are three types of silo at the Experimental Station at Rosthern; namely a round stave silo, 14 feet by 30 feet, above ground; a round, half stave, half concrete silo, 14 feet by 3 feet, fifteen feet above ground, and a trench silo, seventy feet long, ten feet wide at the top, seven feet wide at the bottom and seven feet deep.

All three silos keep the ensilage in good condition. The ensilage in the stave silo and that in the stave-concrete silo above ground freezes so badly in the winter that a large portion has to be left until it thaws in the spring, or has to be chopped out and fed frozen. The ensilage in that part of the stave-concrete silo below the ground and in the trench silo does not freeze. The ensilage in the stave-con-

crete silo below a depth of six feet has to be pulled up in rails or be handled twice by being thrown onto a platform and thrown from there out of the silo. The ensilage in the trench silo can be taken out without difficulty by means of throwing it into a box on a small sleigh and having it hauled by a horse to wherever it is wanted.

The relative cost of the different silos is an important consideration. The material for the stave silo or for walling in the pit silo is considerable, whereas in the case of the trench silo, there is no cost for material. All

things considered, the trench silo is undoubtedly the most desirable type of silo for the Canadian West.

RIDING ON SIDEWALKS PROHIBITED

Youths are warned that riding bicycles on the sidewalks is not allowed in Lacombe, and in future anyone found doing so will be prosecuted. A lady was rather badly hurt a day or two ago, when a youngster on a bicycle ran into her. So take warning.

Performance Style Luxury Quality

at Low Cost

If you could have exactly the kind of car you wanted, what are the features you would demand?

You would want Performance . . . stamina to stand long, trying trips.

Then you would want Style, of course,—the latest trend in body design—long, low, racy lines,—the newest and most modish colorings. You would want the distinction of Body by Fisher.

And you would like a Luxurious car . . . one with wide, deep cushions that invited rest . . . with rich and beautiful upholstery and fine interior appointments . . . one with snug protection against the weather with ease and smoothness of riding. Last, but by no means least, you would demand Quality . . . substantial construction . . . refinements such as Four-Wheel Brakes, Air-Cleaner, Oil Filter, Crankcase Breather, Vacuum-Feed Fuel Supply, Safety Gasoline Tank in rear and so forth . . . dependability at all times and under all conditions! These are the things everyone would like to have in a car . . . and that everyone CAN have, for the first time in automobile history, at the low cost of the "Bigger and Better" Chevrolet.

The G.M.A.C. General Motors' own delivery payment plan affords the most convenient and economical way of buying your Chevrolet on time.

IN THE new Chrysler-built PLYMOUTH you get results that you simply won't believe possible in a car of such price, until you actually experience them for yourself.

Never before, at such low prices, have you expected, much less realized, such speed, such power, and such smoothness—not a vestige of vibration through out its entire speed range.

Never before have you enjoyed such comfort. Full adult-size bodies. Fine upholstery and appointment you expect only in cars costing far more.

Never before have you experienced such braking power. Internal expanding hydraulic 4-wheel brakes with moulded brake lining—no other car under a thou-

sand dollars is so equipped—bring you to an instant stop with least pressure.

Never before has a car of this price possessed such distinctiveness of body design. Swagger style. Smart slender-profile radiator. Sleek, trim silhouette.

In short, never before has there been such a car. Only the engineering genius and manufacturing skill of the Chrysler organization, through its principle of Standardized Quality, could produce such a low-priced car, embodying the quality and the value of the finest.

We are eager to place a Plymouth at your disposal. Ride in it, drive it and we know you, too, will be ready to acclaim it Chrysler's crowning achievement in the lowest-priced field.

JOINING THE WHEAT POOL IS GOOD BUSINESS

A Toronto Business Man, Owner of Alberta Farm Land, Says He Would Not Think of Staying Out of the Alberta Wheat Pool.

J. T. Todd, general manager of the J. T. Todd Lumber Company, Toronto, Ontario, is the owner of a large tract of land in the Crowfoot district in Alberta. He is a staunch member of the Alberta Wheat Pool. In fact, so interested is Mr. Todd in the Pool's development that he is endeavoring to persuade non-Pool neighbors to join the organization.

In a recent letter to a neighbor at Crowfoot, Mr. Todd says:

"Dear ————
"I have often wondered if you had joined the Wheat Pool. If you have not, I believe if you will consider this matter seriously you will find it is much to your interest to be a member of the Pool. As you know the Pool is only the farmer in business for himself, and the more support the Pool has the better it is going to do for all of us. It is simply a cold-blooded proposition so far as we are concerned and we, like everyone else in business, want to get as much for our labor and wheat as we can. This is a day of co-operation and not only the farmers are doing this, but the largest industries, such as automobile and steel, are doing the same. The people in the steel and automobile business are considered to be the brainiest in the world and they are only following the lead which the farmers have pointed out to them during the last five years. Stores are also doing the same.

"I believe if you will consider this matter from your own best interest, and the best interests of the community and farmers at large you will decide that YOU CANNOT AFFORD NOT TO BE A POOL MEMBER. I would not think of being out of the Pool myself and I just purchased 320 more acres of land this spring, and as you know, 200 acres of that is broken and will be in crop next year. All of my land is in the Pool, and in fact if I had ten times as much land as I have it could be handled in no other way than through the Pool.

"I would like to see you and all the other fellows in the Crowfoot district members of the Pool. If enough would come in we could have an elevator at Crowfoot and that is what we want in time. I believe that with the way the movement is growing, we will eventually have it."

SIGN A Wheat Pool CONTRACT NOW

TO POOL MEMBERS

Whereas Climatic and other conditions over which the farmer had no control, have prevented a number of pool members from delivering their wheat prior to the date set for cut off, July 16th, 1928, the board of directors by resolutions passed this 17th day of July, 1928, have authorized that any street wheat delivered at, or any earload lots billed out of country houses on or before July 31st, 1928, be settled for on a basis of the 1927-28 Pool prices. Members delivering wheat between the dates July 16th and August 1st will receive the initial payment on the 1928-29 initial payment schedule, but an adjustment will be made by the pool head office which will bring the payment up to 1927-28 pool average price Alberta Wheat Pool.

THE SILVER CRESCENT ORCHESTRA

The Silver Crescent Orchestra, now playing in the Cozy Hall, Gull Lake, are holding regular dances Monday, Wednesday and Saturday nights. The orchestra, composed of four pieces, are one of the best playing in the district. Their dance numbers are the very latest, their rhythm, the very poppiest, and the hall is all that can be desired. You should make a point to attend these dances, you are assured of a good time.

DEATH OF MRS. ATTRELL

Mrs. A. B. Attrell, daughter of Mr. and Mrs. George Hunt died very suddenly on Monday morning, after a brief illness. The funeral was held on Tuesday afternoon from the Free Methodist Church, and was attended by a host of friends of the family from town and country. Deceased was married to Mr. Attrell, just about a year ago, and leaves to mourn besides her husband, an infant son, mother and father, and other near relatives. There were a great many floral tokens of sympathy from friends in town and country. The sincere sympathy of our citizens is extended to the bereaved family. At the time of her death, Mrs. Attrell was in her 22nd year.

CARD OF THANKS

We desire to express our very sincere appreciation to all the kind friends and neighbors for their thoughtful helpfulness shown in so many ways in our recent bereavement. We would especially like to thank the Lacombe Lodge No. 35, B.P.O.E., for their kindly services at this time. Oliver Fawcett, Mrs. Elizabeth Fawcett and Family.

LES CRANE AND HIS "CANADIENS"

HERE ON JULY 26
Owing to a popular request for a re-appearance of this famous orchestra through the West, arrangements were made, after strenuous efforts, to book them through in all the principal centers between Vancouver and Winnipeg. This brilliant orchestra is well known to radio listeners, having played over C.N.R.V., Vancouver, from the Belmont Cabaret for the past year. Those who have heard this orchestra over the radio, will be sure to attend, and hear them in person—those who have not heard them, should make it a point to be on hand Thursday night next. It is seldom that an opportunity of this kind presents itself here, and everyone should take advantage of it. The "Canadiens", formerly Pomeroy's Imperial Radio Orchestra, played in Lacombe in 1927, and were greeted with enthusiasm. They are now one of the best orchestras in Canada and lovers of real music will surely welcome this opportunity to hear them on the above date. The personnel of the orchestra is as follows: Les Crane, Jean Pomeroy, Lloyd Mansfield, Eddie Larden and Verne Walton. Manager L. F. Shacker.

BAPTIST CHURCH

There was a unique service held in the church last Sunday night, when thirty-three of the boys from the Gull Lake Camp, with their leaders, came in for the meeting. The boys gave a wonderful Bible reading "the beginning to the end"—quoting from Genesis to Revelation—showing the fall of man, God's remedy for sin, and the final restoration. Every boy gave a passage. Dr. E. R. Hughes, of Calgary spoke to the boys teaching them the result of taking the right or wrong turn in the Crisis of life. Five of the boys professed conversion. The service was conducted by Rev. E. G. Hansell, the camp pastor.
Sunday School at 11 a.m.
Public service at 7:30, and prayer meeting on Thursday at 8 p.m.
To any or all of these services you are heartily invited—Come once and you will come again.

EUREKA VALLEY NEWS

Mrs. Irish of Calgary is visiting her daughter Mrs. R. C. Wilson.
Mr. Claxton is having a new house built on his farm. The Red Deer carpenter is building it.
Miss Myra Yellow left on Thursday for a two weeks holiday at Millet. She will visit her father and friends.
Mr. F. Grallap who has been building P. A. Jacobsen's new house, was quite badly hurt on Thursday when he fell through the chimney hole into the floor below. It was first thought his hip was dislocated, but Dr. Sharpe of Lacombe was called and it was found that it was badly bruised. We hope him a very speedy recovery.
The well drillers have drilled a well for Mr. Joe Walstrom and have now moved to the school. This will be a great benefit to the school as it has been without drinking water for several years.
Mr. and Mrs. Raymond Boomer and family who have been living at the coal mines on the Red Deer River have moved back on their farm to do the summerfalling.
It looks as if there will be good crops in this district next year, as several farmers are breaking and summerfalling.

LOCKHART NEWS

We are glad to see Mrs. Reed up and around again, after an illness of two months.
The Girl's Club have had ideal weather for their camping at Gull Lake. They are expected home on Sunday. Mrs. Kertzman and Mrs. Palm spent Wednesday night with the girls at the lake.

Mr. Ralph Weise and family visited with their parents, Mr. and Mrs. Wm. Weise, on Sunday, but were rather unfortunate going home, as their car slid off the road and they had to be pulled home with a team.
Mr. and Mrs. G. A. Robson, visited Mrs. Robson's sister, Mrs. Bob Stoner, on Sunday.

Mr. C. R. Doty is busy moving onto his farm at Rimby.
Mr. and Mrs. Geo. Boddoo visited Mrs. Boddoo's parents, Mr. and Mrs. Saint on Sunday.

Mr. Wilson Cox, of Ledaide visited his daughter Mrs. G. A. Robson on Tuesday.

Ray Weise was in Bentley last Thursday for the trap shooting.
Mrs. Vincent Papp, who has been visiting her parents, Mr. and Mrs. Krains, returned to her home in Wayne last Wednesday.

Mr. Vayoncho, of the Fur Farm, has been waiting for a car load of wire to arrive before he can go on with his fencing.

Mr. and Mrs. Weise visited their daughter, Mrs. Glen Marshall, of Rimby, on Thursday.
Lockhart was well represented at the Gilby celebration, and all report a fine time, even if they were pretty badly defeated in the ball game with a score of 25 to 5 in favor of Gilby. There were quite a number of good items on their sports programme and the picture show and dance were well attended.
Don't forget the big dance at Lockhart on July 20th. Music by Lacombe "Harmonizers."

JOFFRE NEWS

Mr. Swain is installing a new air pump in the elevator.
The picture show, shown in the Joffre hall last Tuesday night, entitled "Alvin Karpis", was welcomed by a large audience. A dance was held after the show.

Born—Mr. and Mrs. Sanford Linder on June 12th, a daughter.
A party of Young People from out west are visiting at J. M. Sawyer's.
Mrs. Charlie Miller's sister from Washington is visiting her.
Miss Jennie Crook, Mrs. Fred Jenkins and children visited at Jenkins on Friday.

Mrs. Swain and the girls are holidaying at Banff.
We are sorry to hear that Mrs. Jenkins is very ill. Dr. Hynes was out to see her on Monday.
Mrs. Wagner and children from Wetaskiwin are visiting at Peters.
Mr. Englands father from Stettler is visiting her.

AT THE COSY

(The Home of Good Pictures and Good Music)

The greatest screen actors of the day, Vilma Blumky and Ronald Coleman in "The Magic Flame." A 9 reel Gruesy story and one of the loveliest, most brilliant pieces of dramatizing to leave Hollywood in a year. Moving, exciting from the very start. Heart and grasps the interest. This is an outstanding picture that is different, and one that you will like as well as the 7th Heaven. Also Comedy. Goss Theatre Orchestra in attendance Saturday night and two full shows, 8:00 and 10:00 o'clock. Saturday matinee at 2:30. Although this is a high priced special, it will show at Regular Prices.

Monday—Tuesday

Buck Jones in "Hills of Peril." A great thriller of the western. Hills, with the star of the saddle in a whirl of good-bad man in thrilling romance and suspense, excitement and relieving fun, with Georgia Hale in the feminine role. Its a dandy Western Comedy romance, also two reel comedy.

A PLEASING EVENT

The home of Mrs. Asor Raymond was the scene of a very pleasant event Tuesday afternoon when about 25 guests gathered in honor of Miss Nita Nicholson a bride of last week. The many useful and pretty gifts were presented in a large basket which was found upon the extraction of a spider's web. Music and a contest provided enjoyable entertainment, after which the bride and groom, Mrs. S. Nicholson presided at the tea table, which was prettily decorated with a centre of garden flowers. Those who assisted in serving were—Mrs. J. A. Pringle, Mrs. C. Haskins, Mrs. Ralph Wise, Mrs. Riddle, Mrs. L. A. Gunnell and Mrs. J. E. Ellsworth.

Noxious Weeds

Your co-operation with Provincial and Municipal authorities is solicited in the control and eradication of weeds. Keep your fields and roadsides free from these unsightly and costly pests.

Weeds reduce the yield and lower the grade of your grain, rob the soil of its fertility and cost money in dockage and transportation. Approximately 60000 cars were required to haul the screenings from one season's crop in Western Canada to terminal markets. Will you not help to reduce this enormous loss?

Give your local weed inspector and the Provincial Field Supervisor in your district every possible support in dealing with the weed problem.

A. M. CAMPBELL'S

Lacombe Fair

The Annual Fair at Lacombe will be held on July 20-31, Aug. 1, and 2. The sale of this stock made it possible for the company to take over the fair property and pay of the liabilities of the society.

"The efforts and methods followed in the disposal of this stock will doubtless be of interest. When the new company was formed the society owed the bank \$8,089.89 and in addition to this there was a mortgage of \$1,000 with interest accrued making the total sum of \$9,249.89.

"The sports committee of The Lacombe Agricultural Society raised \$2,050 by putting on sports on Dominion Day. This money was used to buy stock in the new company and the shares made out in the name of the Agricultural Society. The bank subscribed for 273 shares and the citizens purchased 336 shares. The proceeds together with rents received for the use of the grounds by the various associations was sufficient to liquidate the debt. Today, we have the \$1,000 mortgage to pay, but against it, we have sufficient funds to pay it off, so that we are now out of debt.

"This society is probably the only one in the province to man and run their own midway. It consists of a dancing pavilion, refreshment booths and the usual hurdy-gurdy attractions to relieve people of their money. The midway lost \$20.00 in the year 1926, but made \$417 net in 1927. The only concessions sold have been to machinery companies and other manufacturers to advertise their products.

"It should be kept in mind that the cost of all grandstand attractions, horse races, sports, etc., were paid by the midway before showing the net profit as above.

for the best entry of potatoes, vegetables or whatever branch might be in need of a stimulant. It works too, not only because of the extra money but it adds zest to any competition when there is a special prize at stake.

The society now has a membership of 211 members. Membership fees, together with Government grants, entry fees, and gate receipts make up the usual sources of revenue. One added money-making feature is the work of the sports committee which put on programmes and sports on holidays, such as Dominion day, and as already mentioned the amusement devices of various kinds as well as the grand stand and race track during fair days.

Here and There

With concrete now up as far as the first bedroom windows and steel to the fourth floor, the new York C. P. R. monster hotel in Toronto is well up to schedule and is expected to be completed in time for the opening next May, notwithstanding the short strike of the steel and building trades.

W. M. Van Valkenburg, president of the Regina Board of Trade, says that his city and province are out to capture industries. That is one reason for his visit to Montreal and the Eastern States. He figures that the mineral resources of the province should provide the basis of a number of industries, as 42 per cent of the provincial area lies within the pre-Cambrian shield.

Inauguration of the new New York-Yarmouth, Nova Scotia, passenger ship service recently represented the first entrance of a vessel from New York into Yarmouth harbor for the past 20 years. This was the S.S. Evangeline, of the Eastern Steamship Line, carrying 150 passengers. She is of 5,000 tons and her sailing coincides with the Dominion Atlantic Railway and so enables tourists to reach Nova Scotia sea and holiday resorts.

This summer will witness a great deal of activity on the part of the grain companies as well as the Wheat Pool in the construction of elevators at country points in Alberta to take care of the larger harvests which are expected. Another company which has just announced its intention to enter on a construction program is the Gillespie Grain Company. According to John Gillespie, president, the firm plans to erect six new elevators each with a capacity of 40,000 bushels.

Musicians under the leadership of "Bill" Lieutenant John A. Amer, forming the band of the Royal Air Force. Britain's young military band, landed recently at Quebec from Canadian Pacific liner Montserrat, for a tour of Canada from coast to coast, as did the band of the Coldstream Guards last year. This aggregation was formed in June, 1920, and since then has fulfilled engagements all over the British Isles. The band will play in all the principal centres, including centres and various towns of Canada during their tour here.

"First call for dinner!" "Last call for dinner!" The old monomaniac warning to the hungry traveller is a thing of the past on the Trans-Canada Limited. C. P. R. transcontinental crack train from Montreal to Vancouver. To do a nattily attired waiter in white coat and apron with a smart black bow tie walks through the dining room "chimes" on a dulcimer, an appeal at once more pleasant to the ear and more likely to attract attention than the former method. In time, there is no doubt, the idea will be adopted on all dining car trains of the railway.

OLE SHOWED THEM

Mr. Ole Boode, Chrysler Distributor, returned this week from Windsor and other points, where he attended a conference of Chrysler magnates. He reports a good time, and is more certain than ever that the Chrysler is here to stay. His wonderful left handed corkscrew was a revelation to the other members of the conference, as many of them were from the U.S. where they are still using the old style corkscrew when the occasion arises, but most of those he saw were very

rusty from want of use. Ole demonstrated the great time saving points of his invention to the satisfaction of all. Mr. Boode has started the erection of his new garage at Red Deer, which he expects to have ready for business this fall.

ANOTHER KICK FROM OUTSIDE

Dear Editor:—I read your timely criticism of the bad roads in your town, and wholeheartedly agree with you. I had occasion to bring a member of my family to the Lacombe Hospital a couple of weeks ago, and going up the street to the hospital my car was stuck for nearly an hour and I had to get a tractor to pull me out. Now you will agree that it is a great hardship for a sick person to go through an ordeal like this, and for the benefit of future patients, I trust that your council has seen fit to fix this street.
